Medication Authorization

Tender Hearts Early Learning Program requires written consent from a parent or legal guardian to administer over-the-counter and prescription medication. Whenever possible, parents are encouraged to administer medication at home.

Medication must be in the original container and labeled with the child's name, date, and medication name. Expired medication will not be administered. Dosages must follow the recommendations or instructions on the over-the-counter container or prescription label. Medication is stored out of reach of children and returned home daily.

Administered medication is documented with the medication name, date, time, dosage, and staff member's initials on your child's newsfeed on the Brightwheel app.

Child's Name: _____

Medication: _____

Reason for Medication: _____

Date(s) and Time(s): _____
